Formulating a Research Question

- A successful research question will:
 - Narrow an issue related to pop culture down to a manageable question for a 6-8 page paper.
 - Be specific.
 - Invite discussion about the answer to the question.
- Some **poor** research questions:
 - How does science fiction affect society?
 - (Too broad... affect it HOW? And who is “society” referring to?)
 - What are some good science fiction movies?
 - (“Good” is too subjective. What do you mean by “good”? And what is your **purpose** in ranking these movies? What does it say about a aspect of society/people?)
